

The Vincentians of our parish St. Vincent de Paul Society thank you for your contributions to the parish monthly social justice funds.

There are a number of folks in our county who although they can financially meet their usual monthly expenses are unable to cover unexpected costs such as car repair, damage from mold, insects, water leaks, heating/cooling and household appliance repair/replacement, gasoline for emergency travel, co-pay for prescriptions, loss of income due to family illness, injury, or death, vandalism and theft, background checks, IDs and birth certificates, license renewals. Local civic agencies seldom have funds to cover such needs.

In addition, there are residents who request help with delinquent utility bills/shut off notices or rent payments or eviction notices for which they simply have no money to pay. These needs can frequently be at least partially paid by other area agencies in which case St. Vincent de Paul funds may supplement the cost to stop shut-offs and evictions.

Our community residents who ask for help also need prayers and guidance to help them get some stability in their lives. In addition, we Vincentians who serve on your behalf need your prayers to help us make prudent decisions and to glorify God by our service.
